

CLIENT INSTRUCTIONS

PLEASE READ LISTS THOROUGHLY FOR PRE AND AFTER CARE.

PRE-CARE INTRUCTIONS

- **DO NOT** wax, thread, or tint your eyebrows prior the appointment. Let your brows grow as much as possible
- **DO NOT** consume coffee, teas, or sodas that contain caffeine within 48 hours of your appointment.
- **DO NOT** consume alcohol within 48 hours of your appointment.
- **DO NOT** take ibuprofen or other blood thinners within 72 hours of your appointment.
- **NO** antibiotics within 2 weeks of your appointment.
- **NO** Botox within 4 weeks of the appointment.
- **NO** chemical peels, laser treatments, glycolic peel within 4 weeks of your appointment.
- **Discontinue** use of Retin-A, Glycolic Acid, or Alpha Hydroxyl products at least 4 weeks prior your appointment.
- Avoid tanning your face two weeks prior your appointment.

This is to prevent excessive bleeding during the procedure. Typically, there is very minimal to no bleeding, which indicates all instructions were followed. Excessive bleeding can interfere with pigment implantation and may result in poor retention.
